

## Thank you for your interest in joining the North Shore Model Railroad Club

Anyone over 18 years old is welcome to apply for membership. We do not have a 'junior' membership for those under 18, but parents are welcome to apply and you can participate in the club with your child.

The application process allows you to learn about us and for us to learn about you.

Over the application period we hope you will chat with our members and become involved with the layout. We will reach out to you and introduce ourselves and help you become familiar with our layout and the club members as well as our policies and procedures.

During the application process you will be required to

- Participate in 3 work nights
- Participate in 1 Operations session
- Attend 2 Business meetings.

While these requirements help you become familiar with our layout, it's construction, and it's operations, we encourage applicants to spend as many Thursdays at the club as possible. The more time we can spend with you and the more familiar you become with the club, the greater your chances are of being voted in as a member.

When the above requirements are satisfied the club will vote on accepting you as a member at your 3<sup>rd</sup> business meeting. If you are voted in, we will make you an official member.

If an applicant does not visit the club for 6 months without contacting us, the application will be recycled. You would be free to re-apply again in the future.
